

# Student Education Plan

In 2005 Mountain View High School received a Small Learning Community (SLC) federal grant from the Department of Education. This grant allowed MVHS to utilize federal funding to promote activities and programs to help students succeed.

One of the goals in our grant reads as follows:

- All students grades 9-12 have a working Student Education Plan (SEP) that aligns learning opportunities and academic options with students interests/goals. The SEP begins in Gr. 8 and is revised annually for continuous program evaluation/alignment to meet student academic achievement.

Mountain View High School is committed to providing a quality education that focuses on current and future plans. The SEP is a tool to help students keep track of their grades, goals, current courses, and options after high school. The SEP is housed at the school to ensure continued availability to students. It is a six page folder that addresses each year individually and helps students reflect on their progress and goals.

Students begin utilizing a four year plan at the end of their 8<sup>th</sup> grade year. Mountain View students are given their SEP within the first month of their freshman year. Each year the students will be given time to fill out information utilizing current transcripts until they are seniors. The SEP is available for students to take at the end of their senior year. The SEP is a great communication tool for teachers, parents and students. We strongly encourage students to keep their SEP current and to set annual goals.

As parents, you are encouraged to review your student's SEP at any time. They will be housed in the academy room. Please call 855-4050, ask for the academy room ext. 1025, to set up a viewing time.
